WORK EXPERIENCE

Manager and Counselor /Hazelden Betty Ford Foundation Children's Program

July 2008– present

I facilitate a four day psycho-educational program for children ages 6-13 who come from addicted homes and their caregivers. This includes group work and age appropriate activities for the children and adults that focus on self-care, addiction education and coping skills. I work with families of varied socioeconomic status, cultures and worldviews. As a supervisor, I also attend to client records, plan events, network, complete office duties and speak publicly about my work to various audiences. I have maintain networking relationships, including a CEU event for professionals monthly. I am responsible for managing the program budget and financial income. I manage 4 employees and am responsible for the overall wellbeing of the program.

Skills included: flexibility, creativity, problem solving, program development, event planning, interpersonal skills, networking, leadership, organizational skills, self-motivation, crisis management, employee supervision and mentorship, budgeting skills, team work skills, etc.

Contract Therapist / Animal Assisted Therapy Programs of Colorado

August 2013-present

As a contract therapist for AATPC, I practice a variety of traditional counseling skills including experiential and psychodynamic techniques with a wide variety of clients. I continue to educate myself and practice diversity, equity, and inclusion in my work with clients and colleagues. I also practice traditional record and note keeping, process payments, maintain client files and perform office duties. In addition, I have the unique experience of increasing my knowledge of partnering therapy with an animal. I practice therapy in many non-traditional ways that include animals such as horses, goats, rats and dogs.

Skills included: animal assisted therapy techniques, developing of strong client rapport, empathy and genuineness, case management, strong passion for helping a learning, flexibility, strong work ethic, strong knowledge of ethical practices, willingness to learn, cultural humility, organization, etc.
